Mr. Hideki Matsunaga - Resident Representative Japan International Cooperation Agency

Mr. Hideki Matsunaga
Resident Representative
Japan International
Cooperation Agency

I assumed the post of Chief Representative of JICA Egypt as of 21st April 2012. Until few days before my departure to Egypt, for about one year, I was working in northern Japan for relief and recovery from the Tsunami and Earthquake which took place on March 11, 2011 in Japan. After working in foreign assistance and development fields for more than twenty years, I have to confess that it was the first time I directly worked for my own country and people. While I was in the devastated area, I have met so many people who lost their loved ones, yet many of them are encouraged by the tremendous support extended by so many Arab countries including Egypt. Not only do I appreciate such generous and hearty assistance, but also I have realized how strong the empathy of the Arab people is for others. Most of these countries, in particular Egypt, were going through their own hardships; nevertheless they did care about other countries and their people, in this case Japan and the Japanese. Egypt is now facing unprecedented challenges and I am honoured and feel humbled to be part of the nation building efforts here in Egypt. It is our turn to do something in return to what you have done in northern Japan.
